Hospital list updated Sep/10

You can receive Blue Access Network benefits coast to coast when you're traveling away from home by calling the toll free number on the back of your identification card.

The online directory was developed to help Anthem Blue Cross and Blue Shield members easily find participating physicians, hospitals, and other health care providers. While we try to provide you with accurate data, the information contained in this directory may change as participating providers join or leave the network, move, or retire. This online directory does not constitute a recommendation of any of the listed providers. Prior to receiving services, you should always verify that the provider you choose is still participating with Anthem and accepting new patients. In addition, some benefit plans require that you obtain a referral from your primary care physician before receiving services from another physician or specialist. In order to receive benefits or to receive the highest level of benefits - check your schedule of benefits, your group administrative contract or call the Customer Service number on the back of your ID card to verify your benefits. Your participating provider's agreement for providing covered services may include financial incentives or risk sharing relationships which are based on utilization and quality of services. If you have questions regarding such incentives or risk sharing relationships, please contact Anthem Blue Cross and Blue Shield or your provider. If you receive services from a network hospital, the hospital may arrange with physicians and other providers to assist in your care. Anthem encourages its network hospitals to hold those hospital-based providers to Anthem's standards for member billing. However, if a hospital does not require its hospital-based providers to comply with Anthem's standards, Anthem cannot influence the manner or amount that you may be billed by the hospital-based provider. This directory is for general information. Health benefit plans vary, so please consult your benefit plan document to determine what services and supplies are covered under your particular plan.
