Hospital list updated Sep/10

You can receive GHP PPO Network benefits when you're traveling away from home by calling the toll free number on the back of your identification card.

We are pleased to provide you with easy online access to the directories of physicians and other healthcare providers who participate in the provider networks of our affiliated managed care plans. We strive to ensure that all of the information provided is accurate and updated on a regular basis; however, changes can occur at any time. You should always ask your provider if he or she participates in your specific plan before you obtain medical services, or you should call the customer service number shown on your membership ID card if you remain unsure about the participation status of the provider you wish to see. We cannot guarantee that a particular health care provider will remain a network provider throughout the term of your enrollment. In the event a particular provider you are familiar with is no longer considered a network provider, the Plan offers other quality health care providers for your consideration and selection. Please note that some providers listed in these directories may not be currently accepting new patients. In addition, please note that some benefits plans require you obtain a referral from your Primary Care Physician before receiving specialty care and that your benefit plan may not cover all the types of providers listed or all the services they offer. If you need help selecting a provider or want more information regarding the benefits you are entitled to, please call the customer service number shown on your membership ID card. As a reminder, this information is subject to change. Please verify with your health plan before seeking services.
